

My website Evaluation

First website is http://www.asiatraderhub.com/uae/oil.asp
When you see this website you feel very interesting. Also the information is accurate. Moreover, the information is balances points with contrary views. This website is easy to read and has graphic and easy to brows and find information that you need it. It's score 95%.
Second website is http://power.about.com/library/weekly/aa270203a.htm
This website is probably accurate but not sure. Is hard to read. Also it has graph and this good thing. Moreover, the information is presents facts with little analysis or criticism. Also, the information is there, but not easy to find. Its score is 80%
Third website is
http://www.internationalreports.net/middleeast/dubai/2003/2theuaeisone.html
When you see this website, you feel very boring because more detail and very hard to find the information and hard to read. Also, the information is probably accurate but not sure. Its score is 70%.
Last website is http://www.nationmaster.com/country/tc/Energy
This website is very good website because it's easy to read and easy to find information. Also the information is accurate and easy to brows. Moreover, all information is clear. Its score is 90%.
