

# Famous Basketball player

Done By Ahmed Helal 395

What is the topic of my project and why have I chosen this topic?

About my project I would like it to be about the most famous basketball player in the world.

Every body knows who the man that I will write about him is. He is Michael Jordan, I want to write about one of famous events in sport world, that he left his favorite game (Basketball) and become again.

I chose this topic because I found it the best topic to explain the idea.

**Here are 3 web pages that are relevant to my topic:**

- The first web page is:

[http://sportsillustrated.cnn.com/basketball/nba/news/1999/01/11/jordan\\_retirement](http://sportsillustrated.cnn.com/basketball/nba/news/1999/01/11/jordan_retirement)

**This web page has all information and explains the topic. It has a lot of picture and links. The information was accurate, when I read it I seems it accurate to me, and the answer to my question is here. I can read it, it was easy to read.**

**Rating: 95**

- The second web page is:

<http://studentweb.tulane.edu/~nsinvil/nick2.html>

**This web page not has all information but it gives some thing to my topic. It has a lot of picture but not has links. The information accurate is probably but not sure. It was easy to read. About the author, seems ok but can't really tell.**

**Rating: 80**

**The third web page is:**

<http://www.weekdayshopper.com/shop/micheal-jordan-jerseys.cfm>

**This web page is not the page that I can find the important information for my topic; its right has a lot of pictures and links but not to my topic. This site does not answer my research questions.**

**Rating: 0**

### **Conclusion:**

**I chose the first site to be the 1<sup>st</sup> web page because it has all information and best of information and has nice picture, and I put the other site in second, because it not has all information for my topic but has some thing to explain the idea, at last I chose the third web page in end because It not has any thing to explain my topic it has information for other thing.**

**The web pages were evaluated by this table:**
