Air pollution in Mexico City

This is the first webpage. http://www.sbg.ac.at/ipk/avstudio/pierofun/mexico/air.htm
It got 78 points. It has all information about my topic. It is easy to read. It has many
relevant graphs. The presentations good. It is up-to-date.

This is the second webpage http://www.ess.co.at/GAIA/CASES/MEX/ .

- It got 74 points.
- It is easy to read.
- We can contact the author.
- We can also trust authority.
- But it is not up to date.

This is the third
webpagehttp://greennature.com/article827.html .it got
72 points. It has a clear expression. And it has many
references and links. But the information is not
accurate.
